Bachelor of Technology, Manipal University Jaipur   2021 - 2025
Information Technology

Secondary School, Vig English School   2018 - 2020

SKILLS

Frontend	HTML, CSS, JavaScript	**Core Subjects**	DSA, OOPs, DBMS, Cloud Computing
Backend	PHP, MySQL	**Languages**	Java

EXPERIENCE

Web Developer Intern   May 2023 - July 2023
Tata Motors   *Jamshedpur, India*

- Developed a Hospital Management System with distinct pages for **doctors, patients, and administrators**.
- Implemented patient signup and **doctor-patient management** functionalities.
- Enabled **admin privileges** for seamless healthcare operations management.

Web Developer Intern   May 2024 - Aug 2024
NIT Jamshedpur   *Jamshedpur, India*

- Developed a web portal for efficient student paper submission with **real-time updates** for teachers.
- Built a **one-to-one chat** for instant assignment feedback, boosting communication for 200+ teachers and students.
- Streamlined submission and review processes by transitioning from **offline to an online** portal.

PROJECTS

- **PLU2O** (published on Chrome Web Store): Engineered a Chrome extension leveraging Gemini AI to condense intricate subjects into 20-word summaries; **garnered 300+** page views in the last 3 months on the Chrome Web Store. (Try it here)

- **Midnight Munchies**: Created a full-stack food ordering platform using HTML, CSS, JavaScript, PHP, and MySQL, designed for both customers and admins.
  - **Customer Interface**: Enables customers to explore a **categorized menu**, **search for specific dishes**, and **place orders** directly through an intuitive interface.
  - **Admin Dashboard**: Equipped with full **CRUD capabilities** for managing menu items and orders, allowing administrators to control which items appear in the **featured section** and **toggle the visibility** of specific food items on the menu. This ensures flexibility in menu presentation and seasonal promotions.
  - This platform enhances operational efficiency by giving administrators complete control over menu display, while providing customers with an enjoyable, seamless ordering experience.

- **Personal Portfolio**: Created a **dynamic website** showcasing my learning journey with progress and growth, featuring a dark mode option and optimized for all screen sizes. (Try it here)

ACHIEVEMENTS

- Mastered **100+ DSA** questions on LeetCode. (view profile)
- Awarded Appreciation Certificate for excellence in **Mini Hack 3.0.**

CERTIFICATES

- IT Academy: Cloud and Virtualization Concepts (VMware) (view certificate).
- Web Development Bootcamp (Udemy) (view certificate).

EXTRA-CURRICULAR ACTIVITIES

- Earned **PG in Fine Arts**; led the "Scribbles" art club, overseeing event planning and festival organization.
- Co-hosted hackathons with **Google Developer Student Clubs**.
